

Project on Research in Medical Education (PRIME)

Wednesday, October 24, 2007

8 - 9:30 a.m.

Sanger Hall, Room 1-050*

(*NOTE NEW LOCATION)

One-Month General Anesthesia Preparatory Course for CA1 Residents

This preparatory course has the following goals:

- To educate resident physicians in basic competencies of anesthesiology as well as knowledge, and basic clinical & technical skills as required by the ABA (American Board of Anesthesiology)
- To observe and assess the individual progress of each resident throughout the course and by the supervision of an attending anesthesiologist dedicated to teaching clinical anesthesia and specific operating room procedures

Iolanda Russo-Menna, M.D.

Assistant Professor of Anesthesiology

Division of Pediatric Anesthesia

Chair of Curriculum/Scheduling

MEd in Medical Education Pilot Program Student

Continental Breakfast will be served.

sponsored by the Curriculum Office in collaboration with the Office of Faculty and Instructional Development, VCU School of Medicine on the MCV Campus. For questions, please contact Deborah Stewart at 8-6591.
