

## School of Medicine Professional Development Seminar

All members of the VCU community are invited. Lunch provided with RSVP.  
RSVP online by **Monday, June 25**, at <https://redcap.vcu.edu/rc/surveys/?s=uowtfs>.

### *Interprofessional Education: What Are We Learning Here at VCU?*

presented by the  
Office of Faculty Affairs and the Office of Assessment  
and Evaluation Studies

**Wednesday, June 27, 2012  
12 - 1:30 p.m.  
Kontos Medical Sciences Bldg., Rooms 104/105**

You have probably been hearing a lot about interprofessional education and practice. Come learn what we have discovered in the VCU School of Medicine and VCU Health System about learning and working in interprofessional groups at the UGME, GME, and Practitioner level. Researchers from the Office of Assessment and Evaluation Studies will present findings from their work and the implications for our educational and clinical practice. There will be time for discussion after each presentation.

As a result of this presentation, participants will:

- describe three studies examining interprofessional teams for learning and practice here in the School of Medicine and Health System
- identify opportunities and challenges presented by interprofessional groups
- discuss the implications for your own teaching, learning, and professional practice

#### *Interprofessional Education and Geriatric Medicine with 2nd Year Medical Students*

**Presenter: Allison A. Vanderbilt, Ed.D.**

Assistant Professor, School of Medicine, Office of Assessment and Evaluation Studies

#### *Evaluation of an Interprofessional Intern Conference for Patient Safety Competencies*

**Presenter: Moshe Feldman, Ph.D.**

Assistant Professor, Office of Assessment and Evaluation Studies

Assistant Director of Research and Evaluation, Center for Human Simulation and Patient Safety

#### *Interprofessional Healthcare Teams: An Examination of Team Functioning*

**Presenter: Deborah DiazGranados, Ph.D.**

Assistant Professor, Office of Assessment and Evaluation Studies and  
VCU Center for Clinical and Translational Research

We would like to thank the following for the support that helped to make these presentations possible: The VCU CCTR is part of a national CTSA consortium and is supported by award No. UL1TR000058 from the National Institutes of Health's National Center for Advancing Translational Science. These presentations are also supported in part by an education grant from the Donald W. Reynolds Foundation (PT105726) - VCU Partnership in Interdisciplinary Geriatric Education: Next Steps.
