- Treat everyone in the SOM community with sensitivity to diversity in culture, age, gender, disability, social and economic status, sexual orientation, and other personal characteristics without discrimination, bias or harassment.
- Maintain patient, research subject, and student confidentiality.

Informal Process for Addressing School of Medicine Concerns Regarding Professionalism

If you perceive or experience instances of personal abuse or some other form of what you view as unprofessional behavior on the part of your teachers or colleagues, you are encouraged to report such incidents through normal channels for counsel and possible rectification. If this route is awkward for you, an alternative approach is consultation with a member of the SOM Professionalism Committee.

For a full description of the latter process and the persons to contact (current members of the SOM Professionalism Committee), go to the SOM Professional website:
