**Subject:** State of Virginia coronavirus vaccine web sites

Good morning SOM Graduate Students,

Just making sure you are aware the State of Virginia has a new [Vaccinate.Virginia.gov] vaccine information website and (for individuals residing in Virginia) a related vaccine [pre-registration site](#). Both sites were operational as of this morning. This is a highly dynamic situation and the vaccines are currently in very limited supply as you know, so I appreciate your patience as together we navigate through the process leading to broad vaccine availability.

Thanks as always for your continuing commitments to your training and maintaining a safe training environment, and please reach out to your program directors or me if you have questions or concerns.

All the best,

Dr. G.

Mike Grotewiel, Ph.D.
