10:11:59  From  David Gewirtz : I think that we need to discuss the new guidelines from the CDC that were just issued yesterday/today re masking, particularly in terms of face to face teaching.
Response: Guidance could evolve based on this and other changes, please stay tuned for updated information.

10:12:57  From  Dana Lapato : Do we need to schedule an IT equipment check? Last time I tried to check the equipment, the room was locked.
Response: Buildings should be unlocked soon, but please contact Dr. Grotewiel if you need access before that happens.

10:12:58  From  David Gewirtz : Also, I have not been in the classrooms, but are there plastiglass barriers around the podium?
10:13:19  From  Rita Shiang : There are no barriers
10:14:24  From  David Gewirtz : I would propose that these barriers be instituted considering the dangers associated with the Delta variant.
Response: Please contact Dr. Grotewiel with specific requests.

10:34:02  From  Audrey Lafrenaye (she/her) : I've also had an issue with having multiple accounts in Canvas. Just FYI in case you’re having issues getting the course content.
10:34:41  From  Audrey Lafrenaye (she/her) : This was associated with having both a vcu.edu and vcuhealth.org email
10:36:29  From  I. Scott Ramsey : FWIW, I have been able to add instructors using @vcu.edu or eID (not @vcuhealth.org) only.
Response: Please contact VCU Technology Services if you have difficulty adding people.
