

## **Exceptions to policies**

Exceptions to policies applying to SOM graduate students are rare, but a student may make a written request for such an exception to their current program director who will coordinate with the Associate Dean for Graduate Education and the School of Medicine graduate programs committee to consider whether the exception is in the best interest of the student, the programs involved, and all other programs within the School of Medicine.

Approved by the School of Medicine Graduate Programs Committee: 2020.08
